Analysis Capabilities

At Sourceree, we are committed to utilizing trusted intelligence-based services to provide a competitive edge to our partners while simultaneously bolstering our nation's security. Our analysis capabilities are diverse and comprehensive, allowing us to deliver actionable insights and strategic recommendations.

All-Source Intelligence

Our team of experienced analysts specializes in gathering and analyzing data from a variety of sources to provide a holistic view of potential threats and opportunities. By leveraging open-source information, human intelligence, signals intelligence, and more, we offer a well-rounded assessment of the current landscape.

Planning, Programming, Budgeting, and Execution (PPBE)

Sourceree excels in assisting partners with the intricacies of PPBE, ensuring that resources are allocated efficiently to achieve strategic objectives. Our thorough analysis helps optimize budgeting processes, prioritize investments, and align planning efforts with overarching goals.

Readiness Analysis

We conduct readiness analysis to assess the preparedness of organizations and entities in responding to various scenarios. By evaluating capabilities, training, and resources, we identify strengths and weaknesses, enabling our partners to enhance their readiness posture effectively.

Foreign Investment (CFIUS) and Adversary Capital

Sourceree offers expert analysis on foreign investment, particularly through the lens of the Committee on Foreign Investment in the United States (CFIUS). We assess the

implications of international capital inflows, identifying potential risks and providing strategic guidance to mitigate any adverse impacts on national security.

Cyber Security Management and Analysis

In an increasingly digital world, cyber security is paramount. Sourceree's analysis capabilities in this domain encompass threat assessment, vulnerability analysis, incident response planning, and security strategy development. Our proactive approach to cyber security management helps safeguard critical assets and data from malicious actors.

At Sourceree, we pride ourselves on delivering timely, accurate, and actionable analysis to support our partners and contribute to the enhancement of national security. Our comprehensive suite of analysis capabilities enables us to navigate complex challenges and empower informed decision-making in an ever-evolving threat landscape.
